

QUALITY POLICY

GA Engineering will adhere and maintain a controlled Quality System defined by the Quality Manual (Q.M)

All departments will document, record and control each activity where applicable which relates to the Q.M

Our Quality Policy is defined and strongly driven by the following management principles and behaviours:

- Build a mutually profitable relationship with our customers, ensuring their long-term success, through the understanding of their needs and the needs of their customers as well
- Achieve our commitments for quality, cost, and schedule
- Enhance the systematic research and use of best preventive practices at all levels and ensure reliable risk management
- Drive continual improvement and innovation based upon efficient business processes, well-defined measurements, best practices, and customer surveys
- Develop staff competencies, creativity, empowerment and accountability through appropriate development programs and show strong management involvement and commitment

GA Engineering strives to be the best provider of precision engineering services in the industry.

By using these guiding principles, everyone in GA Engineering is accountable for fully satisfying our customers by meeting or exceeding their needs and expectations with best-in-class solutions and services. Our goal is 100% customer satisfaction 100% of the time.
